

# Who Is Right At School?

Welcome parents and students to the Right At School family!

We are thrilled to be your school's selected before- and after-school provider. We know you have questions, and we'd love to take this opportunity to tell you more about Right At School so that you can feel informed as you make the very important decision about where your child will be during the before and after school hours.

## Who are we?

**WE'RE EDUCATORS.** We are a team with significant experience and passion educating children. From curriculum writing, to program staff hiring and training, to accounting and payroll, we're all driven by our mission "to inspire a love of learning, support schools, and give parents peace of mind." **WE'RE PARENTS.** We understand first-hand the importance of affordable and high-quality before- and after-school care, because we rely on it ourselves! Many of our own children are even in Right At School programs. **WE'RE EXPERIENCED.** We operate programs in many school districts across the country and in all types of urban, suburban, and rural school communities.

## What makes Right At School different?

We think there's a lot about our program that make us different, from the homework support provided, to the unique curriculum, to the way we transition from one space to another so that safety is a key focus. But the one that is talked about the most from our students is the feeling of community that is unique to each of our programs. We begin each day with a "Town Hall," where students share news and special events, and our educators preview the fun afternoon

that awaits them. Led by our nurturing educators, your child will become part of an after school community that truly feels like family.

## Who are the program staff?

Right At School educators are local, experienced post-graduate and current college students with a passion for working with children. Our educators participate in extensive and ongoing training in child development, child safety, positive guidance techniques, and best teaching practices. As part of our focus on safety, our staff must pass comprehensive fingerprint background checks. Right At School educators are nurturing, energetic, and excited to work with your children every day!
