Good Evening:

This afternoon, Governor Mike Dewine held a press conference outlining the state's expectations related to school closure for all K-12 schools. Based on his directive and the needs of our district, the Brunswick City School District will be closed starting tomorrow until April 3, 2020. On that date, the closing of our district will be reevaluated.

Tomorrow, Friday, March 13th, all students will have access to their school building to pick up their Chromebooks and personal items in case they did not bring them home today. All staff will report tomorrow to begin planning for online learning. We will be contacting families in the near future to give an update regarding the specifics about online learning.

Sincerely,

Michael Mayell  
Superintendent, Brunswick City Schools
